

Clarification on Random Transaction Selection

This Specification Bulletin clarifies the processing of Random Transaction Selection.

Applicability

This Specification Bulletin applies to:

- *EMV Integrated Circuit Card Specifications for Payment Systems Version 4.3 Book 3*

Related Documents

- *None*
-

Description

In EMV Book 3, section 10.6.2 "Random Transaction Selection" describes the requirements for which a transaction is eligible for Random Transaction Selection. This specification bulletin clarifies that if the transaction amount is equal to or greater than the floor limit, the transaction is not eligible for Random Transaction Selection.

Proposed Specification Change

In EMV 4.3 Book 3, section 10.6.2, replace Figure 13 by the following:
