

**EMV® General Bulletin No. 59**  
**First Edition December 2023**

---

## **Groups Naming**

*This Bulletin applies to all EMVCo Groups, past communications and published documents.*

---

### **Applicability**

- This Bulletin applies to all EMVCo Groups and past communications and published documents.
- 

### **Description**

EMVCo's scope expansion over the past twelve years has resulted in the creation of new groups and EMVCo has decided in 2023 to update group titles to improve consistency and clarify our ongoing communication with Associates.

Objectives of this naming update:

- Enhanced Clarity: Clearer distinction between the roles and responsibilities of each group.
- Streamlined Communication: Easier identification of groups for stakeholders, leading to more efficient interactions.
- Focused Expertise: Each group will have a more defined area of expertise, ensuring targeted and effective outcomes.

This decision created three possible criteria for EMVCo groups:

- Task Forces have an exploratory nature and EMVCo has not yet decided that the group will have an ongoing remit (a current example is the Wireless Task Force) or will have a defined and time-limited remit (e.g., the Contactless kernel Task Force)
- Working Groups develop and maintain Specifications and Frameworks (e.g., Level 2, 3-D Secure or EMV Payment Tokenisation Working Groups) or have an ongoing operational responsibility and maintain guidelines (e.g. Marks Management or Security Evaluation Working Groups);
- Testing Groups facilitate the testing to assess products' conformance to EMV® Specifications, allowing EMVCo to distinguish development from testing functions. These groups manage mainly testing and/or tool qualification processes with the objective of evaluating the products.

We are pleased to announce a strategic reorganization and renaming of some of our working groups, testing groups, and task forces to enhance consistency and clarity in our operational structure.

These changes are effective immediately and are retroactive, applying interchangeably to all documents and references published prior to 2023 (this retroactive application ensures consistency across EMVCo communications and documentation):

- "Card Approval Working Group" (CAWG) is now "Card Testing Group" (CTG);
- "Terminal Approval Working Group" (TAWG) is now "Terminal Testing Group" (TTG);
- "Level 1 Task Force" is now "Level 1 Testing Task Force" (L1TTF);
- "QR Task Force" is now "QR Working Group" (QRWG) for its commitment to continuous support to the QR Code Specifications.

## **Legal Notice**

This document is subject to change by EMVCo at any time. This document does not create any binding obligations upon EMVCo or any third party regarding the subject matter of this document, which obligations will exist, if at all, only to the extent set forth in separate written agreements executed by EMVCo or such third parties. In the absence of such a written agreement, no product provider, test laboratory or any other third party should rely on this document, and EMVCo shall not be liable for any such reliance.

No product provider, test laboratory or other third party may refer to a product, service or facility as EMVCo approved, in form or in substance, nor otherwise state or imply that EMVCo (or any agent of EMVCo) has in whole or part approved a product provider, test laboratory or other third party or its products, services, or facilities, except to the extent and subject to the terms, conditions and restrictions expressly set forth in a written agreement with EMVCo, or in an approval letter, compliance certificate or similar document issued by EMVCo. All other references to EMVCo approval are strictly prohibited by EMVCo.

Under no circumstances should EMVCo approvals, when granted, be construed to imply any endorsement or warranty regarding the security, functionality, quality, or performance of any particular product or service, and no party shall state or imply anything to the contrary. EMVCo specifically disclaims any and all representations and warranties with respect to products that have received evaluations or approvals, and to the evaluation process generally, including, without limitation, any implied warranties of merchantability, fitness for purpose or non-infringement. All warranties, rights and remedies relating to products and services that have undergone evaluation by EMVCo are provided solely by the parties selling or otherwise providing such products or services, and not by EMVCo, and EMVCo will have no liability whatsoever in connection with such products and services.

This document is provided "AS IS" without warranties of any kind, and EMVCo neither assumes nor accepts any liability for any errors or omissions contained in this document.  
**EMVCO DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, AS TO THIS DOCUMENT.**

EMVCo makes no representations or warranties with respect to intellectual property rights of any third parties in or in relation to this document. EMVCo undertakes no responsibility to determine whether any implementation of this document may violate, infringe, or otherwise exercise the patent, copyright, trademark, trade secret, know-how, or other intellectual property rights of third parties, and thus any person who implements any part of this document should consult an intellectual property attorney before any such implementation.

Without limiting the foregoing, this document may provide for the use of public key encryption and other technology, which may be the subject matter of patents in several countries. Any party seeking to implement this document is solely responsible for determining whether its activities require a license to any such technology, including for patents on public key encryption technology. EMVCo shall not be liable under any theory for any party's infringement of any intellectual property rights in connection with this document.
