

EMV® Specification Bulletin No. 296

May 2023

EMV® 3-D Secure SDK Specification version 2.3.1.1

This Specification Bulletin No. 296 provides updates, clarifications and errata incorporated since the August 2022 release of version 2.3.1.0.

Applicability

This Specification Bulletin applies to:

- *EMV® 3-D Secure SDK Specification, Version 2.3.1.1*

Updates are provided in the order in which they appear in the specification. Deleted text is identified using strikethrough, and red font is used to identify changed text. Unedited text is provided only for context.

Chapter 7 User Interface

7.1 HTML UI

Requirement 75 was deleted from the EMV 3-D Secure SDK Specification and incorporated into the EMV 3-D Secure Protocol and Core Functions Specification (hereinafter referred to as the Core Specification).

[Req 75]

~~When the Cardholder submits their response, if the 3DS SDK receives a blank response, then it shall assume that the HTML is not valid. In this event, the 3DS SDK shall return to the ACS an Error message (as defined in Section A.9 of the Core Specification) with Error Component = C and Error Code = 203.~~

7.2 Native UI

Requirement 71 was deleted from the EMV 3-D Secure SDK Specification and incorporated into the Core Specification.

[Req 71]

~~If the Cardholder does not enter any data in the UI, the Challenge No Entry field shall be sent in the CReq message with the value = Y.~~

Legal Notice

The EMV® Specifications are provided “AS IS” without warranties of any kind, and EMVCo neither assumes nor accepts any liability for any errors or omissions contained in these Specifications. **EMVCO DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, AS TO THESE SPECIFICATIONS.**

EMVCo makes no representations or warranties with respect to intellectual property rights of any third parties in or in relation to the Specifications. EMVCo undertakes no responsibility to determine whether any implementation of the EMV® Specifications may violate, infringe, or otherwise exercise the patent, copyright, trademark, trade secret, know-how, or other intellectual property rights of third parties, and thus any person who implements any part of the EMV® Specifications should consult an intellectual property attorney before any such implementation.

Without limiting the foregoing, the Specifications may provide for the use of public key encryption and other technology, which may be the subject matter of patents in several countries. Any party seeking to implement these Specifications is solely responsible for determining whether its activities require a license to any such technology, including for patents on public key encryption technology. EMVCo shall not be liable under any theory for any party's infringement of any intellectual property rights in connection with the EMV® Specifications.
