---

### **Effective Date**

This specification bulletin is effective from November 2013 at which time any affected or new type approval testing will come into effect.

### **Applicability**

This Specification Bulletin applies to:

- *EMV Contactless Specifications for Payment Systems, Book D – EMV Contactless Communication Protocol Specification, Version 2.2 – June 2012.*

### **Related Documents**

None

---

### **Description**

In Book D, section 7.1 the symbol ERROR used in the state diagram is defined as a transmission or protocol error. This Specification Bulletin clarifies that ERROR does not include Type B commands.

## **Specification change**

Change the definition of ERROR in Section 7.1 as follows:

ERROR            A transmission or protocol error detected.<sup>1</sup>

<sup>1</sup> This does not include Type B commands.
